

NOLAN RYAN DESCHRYVER

HAYDEN, ID – (208) 755-3117 – nolanrd04@gmail.com – <https://www.linkedin.com/in/nolandeschryver/>

SUMMARY

Computer Science student at Grand Canyon University specializing in Big Data Analytics with hands-on experience in full-stack software development, machine learning, and cloud-based applications. Experienced in building real-world applications using technologies such as React, Python/FastAPI, SQL databases, and Azure services through academic projects and industry externships. Proven leadership through national advertising campaigns for Tide and AT&T, with strong communication and problem-solving skills developed through collaborative technical projects.

SKILLS

Programming: C#, Python, C++, Java, HTML, JavaScript, React, Tailwind CSS, MySQL, Mongo DB, PostgreSQL, project management, database queries, object-oriented programming, database design and maintenance.

Advertising/Data analytics: Graphic design, statistical analysis, market analysis, MS office.

Project Management: Designated project manager for GCU's first year participating in National Student Advertising Competition. Head researcher for the second year.

EDUCATION

Grand Canyon University- Phoenix, AZ

April 2026

Bachelor of Science in Computer Science - Emphasis in Big Data Analytics (3.75 GPA)

- Intro to Machine Learning, Object-Oriented Programming, Data Structures and Algorithms, Linear Algebra, Calculus, Digital Logic and Design, Operating Systems, Calculus Based Probability and Statistics.

PROFESSIONAL EXPERIENCE

Paychex Externship: Prompt Hub Application Development

2025 – 2026

- Developed a full-stack Prompt Hub application for employees to store and manage LLM prompts using React, Tailwind CSS, FastAPI, and PostgreSQL
- Collaborated in a 4-person agile team, utilizing Jira, Azure Web Services, and Microsoft Authentication for project management and deployment
- Designed APIs, managed database integration, and contributed to UI development and cloud deployment

National Student Advertising Competition, GCU

2023 – 2025

- Worked with a large team of students to create an advertising campaign for Tide and AT&T.
- First year I was a project manager, tasked with keeping the team on track. I also did the majority of research for the campaign. Second year I am the head researcher for the campaign. I am tasked with leading the team in proper research practices to ensure that the campaign is strong.

Research and Development Project, GCU - [GitHub](#)

2023 – present

- Intense research on how to use C# and Terraria libraries.
- An immense amount of object-oriented Programming, sprite design, and story building.
- Created numerous amounts of items, projectiles, and NPCs.
- Created [video showcases](#) on Mint Gaming Terraria.
- Accumulated over 100,000 views and 3,300 public subscribers.
- GitHub project available on request.

ADDITIONAL EXPERIENCE

Content Creator - YouTube

February 2021 – Present

Lifeguard/ Games Attendant – Silverwood Theme Park

July 2019 – September 2022

Food Runner / Bartender / Cashier – Cochinito Taqueria

Summer 2023 & 2024

COMPUTER SCIENCE PROJECTS

Database Creation: Made two relational databases. One was in MySQL and it mimicked a Costco database and the other was in MongoDB and it mimicked an Amazon database.

8-bit ALU creation: Has several functionalities such as an adder, subtracter, shift registers, and memory cells.

Virtual Reality Video Game: Made a fully functioning island escape video game in VR.

CERTIFICATIONS

Disciplined Agile Scrum Master (DASM): Taught me how to work in an agile and iterative environment.
